

Service and Project Management Compared

Successful ITSM initiatives require equally good practice when implementing solutions. These solutions take the form of multiple projects that must be managed for efficiency and effectiveness. This presentation is a high-level discussion of the ITSM lifecycle (based on the IT Infrastructure Library) and the Project Management lifecycle (based on Project Management Institute).

Key Learnings:

- Comparing Lifecycles
- Identifying Integration Points
- Exploring the need for Governance

IT Service Management

- A business approach to deliver IT Products as packaged IT Services

IT Operations Management

- A continuous effort to deliver and support IT services

Project Management

- A temporary endeavour to produce a product, service, or result

Comparing Lifecycles - 1

Project Management

PMBOK Project Lifecycle

IT Service Management

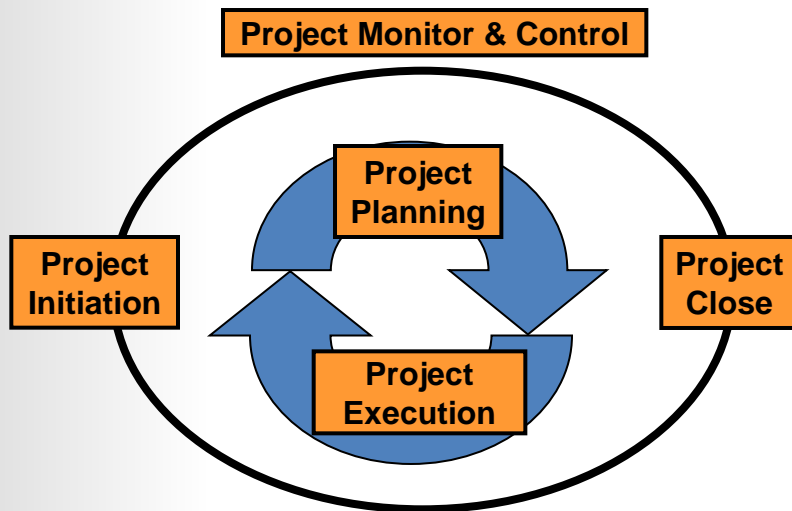

ITIL Service Lifecycle

Comparing Lifecycles - 2

Project Management

PMBOK Project Lifecycle

IT Service Management

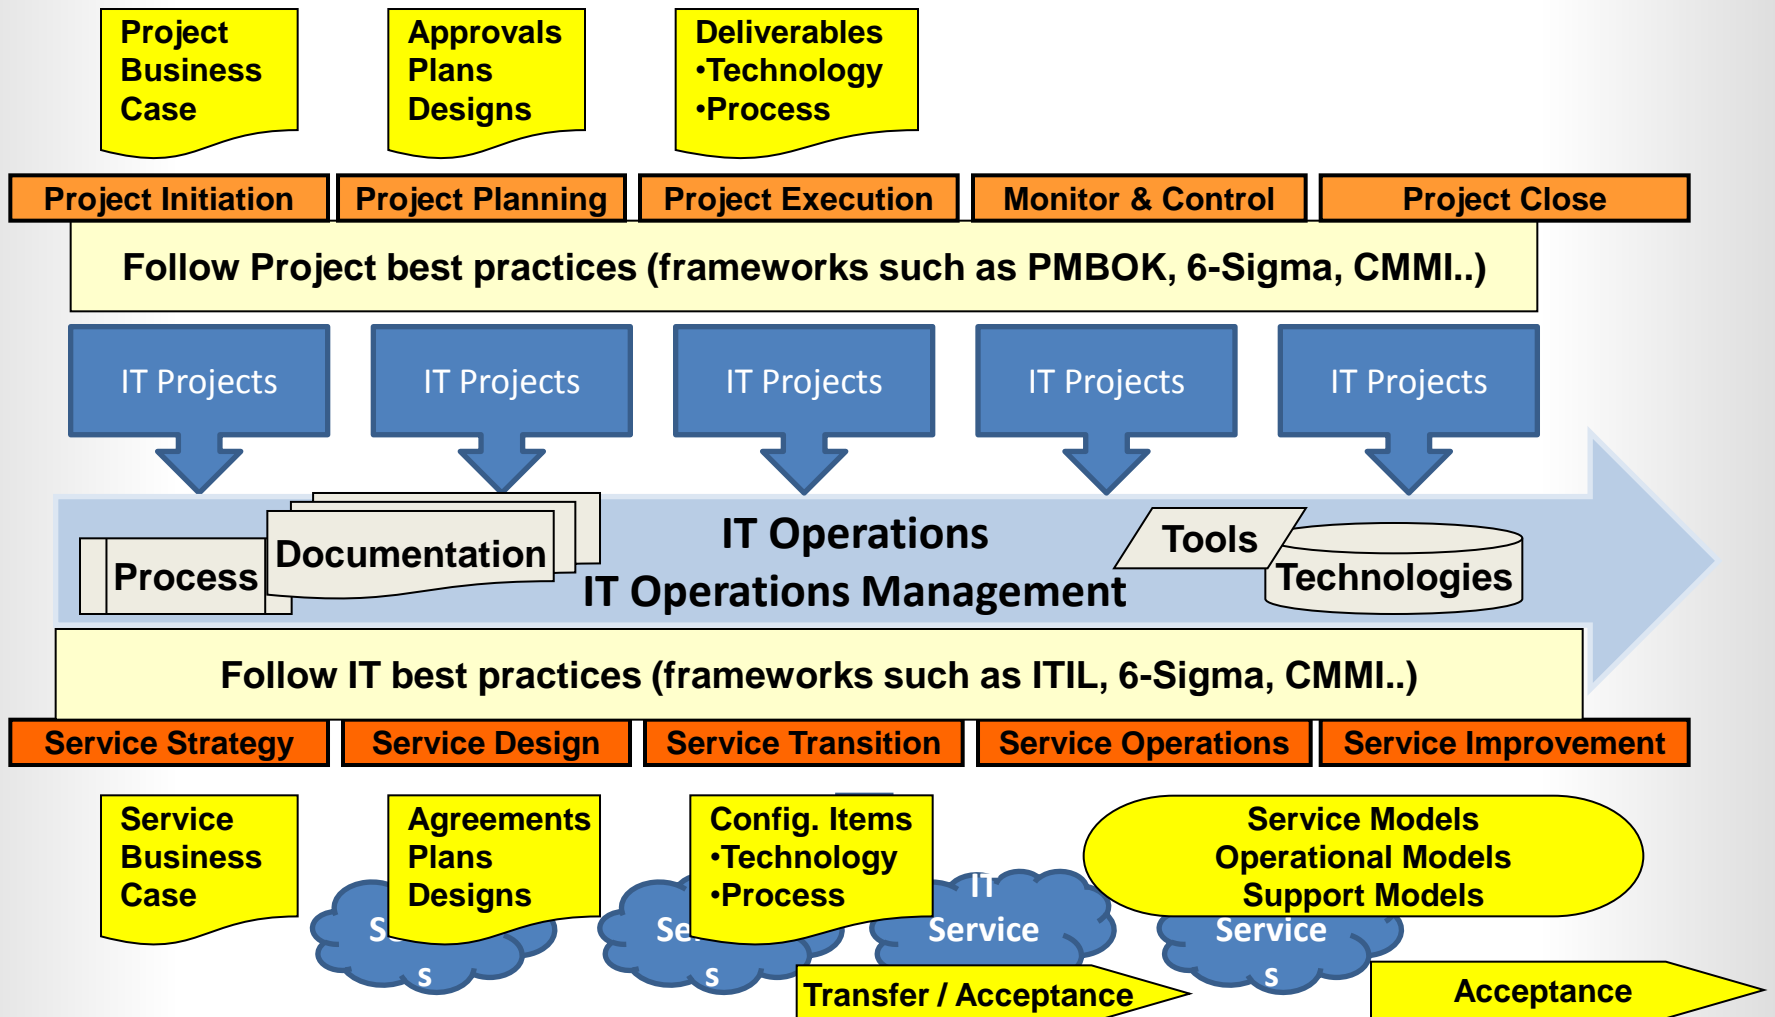

ITIL Service Lifecycle

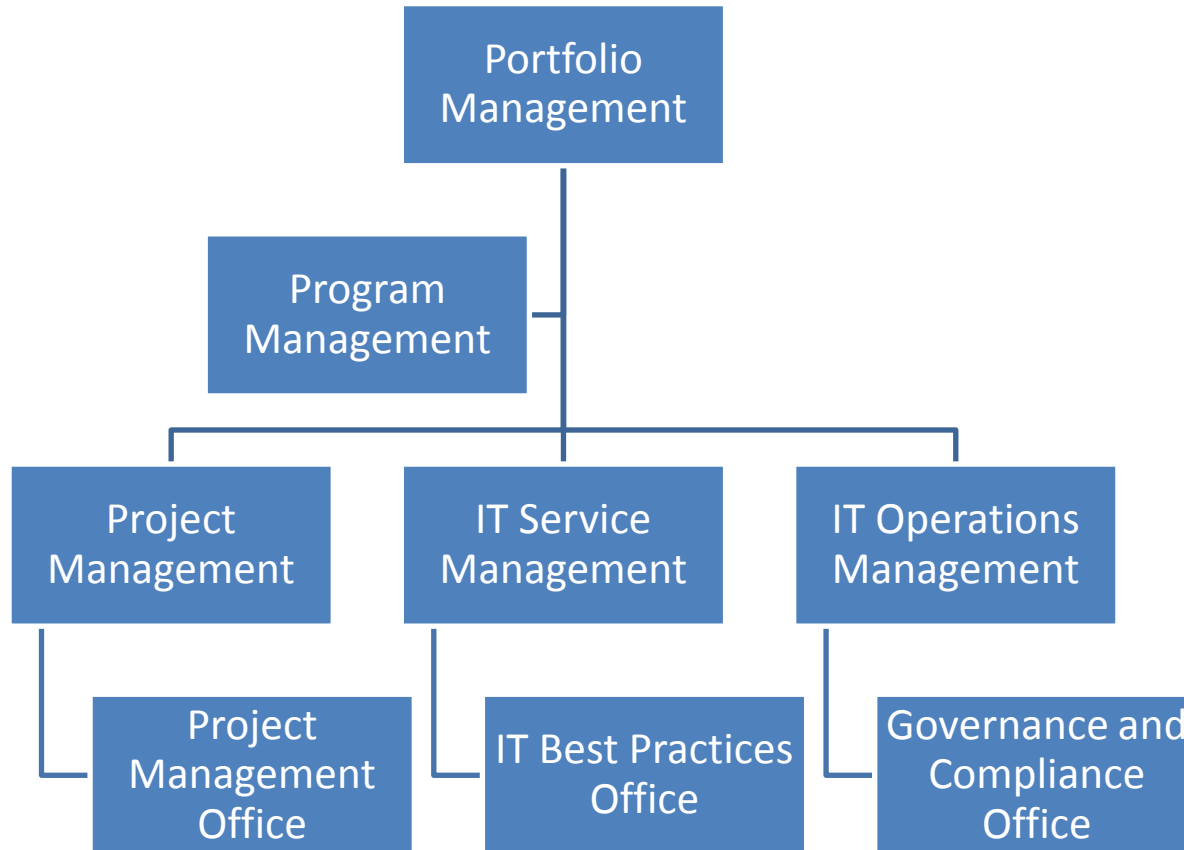

Identifying Integration Points

Transfer / Acceptance

Transfer / Acceptance

- A Service Management approach requires intense integration, co-ordination and prioritization of activities and projects
- Without governance, you are “penny wise and pound foolish”
